Client:

Unicef

Managing Agent:

Keningtons

Description:

UNICEF is the world's leading organisation focusing on children and child rights.

They work with local communities, partners and governments to ensure every child's rights to survive and thrive are upheld and have a presence in more than 190 countries and territories.

Due to the nature of their business and global branding Unicef quite rightly expects and commands a service package, level of management, expertise and communication second to none.

Hemlow provide this engineering service and management structure monitoring, maintaining, operating and repairing all of the HVCA, Mechanical, Electrical and Public Health Services on site at its modern fully air conditioned, London Office and comprises a new Mitsubishi VRF system, Lossnay air handling units, condensing boilers and a state of the art control system.

This contract is managed and coordinated via our Slough operations team.
