

## Introducing just some of our experts...

Firefighter and Personal Protective Equipment (PPE) specialist

***Paul Eaton***

Expertise in floor coverings, manufacturing complaints, performance complaints, cleaning/soiling & staining, fitting, supply of goods, sale of goods, sale by sample, specification anomalies, value for money, over specification.

***Mike Nunney***

Expertise in polymer chemistry, coatings, textile treatments/finishes, additives, fibre identification and matching, microscopy and thermal analysis.

***Dr Gordon Graham***

Expertise in floor coverings, manufacturing complaints, performance complaints, cleaning/soiling & staining, fitting, supply of goods, sale of goods, sale by sample, specification anomalies, value for money, over specification.

***Paul Doherty***

Expertise in Health and Safety (biological, chemical and radiation hazards). Identification of wool/cashmere/yak fibres via DNA analysis, mildewing of textiles

***Dr Paul Hamlyn***

Expertise in environmental survey work, analysis irritation of products and fabrics. Specific knowledge of the Nickel Directive.

***Phil Whittaker***

Expertise in routine testing - physical testing of yarns, fibres and made up products.

***Julia Bullers***

Expertise in chemistry of coated fabrics & chemical analysis of polymeric materials.

***Dr Tony Sagar***

Expertise in instrumental and chemical analysis of products for identification and matching, including fibre identification, identification of spots, stains etc.

***John Buckley***

Expertise in instrumental and chemical analysis of products for identification purposes, assessment of laundry products. Investigations into cause of yellowing, degradation and discolouration/fading of textiles, cause of stains/analysis of contaminants, printing and dyeing problems, cause of corrosion of metals (in contact with textiles), assessment of damage due to smoke, dust etc, monitoring for levels of oxides of nitrogen, assessment of ageing of textiles.

***Dr Virginia Wilson***

---

Expertise in characteristics of High Performance Materials

***Dr David Cook***

---

Expertise in biotechnology, microbiology, technical textiles, natural fibres, coloration and technology road mapping.

***Brian McCarthy***
